"Los Datos" de Jardines Comunitarios:

Nuestra definición es simple:

Un jardín comunitario es cualquier espacio donde se cultiva plantas y es mantenido por una comunidad para alcanzar las necesidades de aquella comunidad.

Beneficios a los jardineros y las comunidades:

Aumentar la comunidad por destruir las barreras culturales y económicas.

Hacer que nuestros barrios estén mas "verdes" y lugares mas atractivos para vivir.

Proveer acceso a comida nutritiva y adecuada a las culturas.

Enseñar a los vecinos sobre el cuidado de la tierra.

Ayudar en la prevención de la actividad criminal.

Proveer ejercicio físico y bienestar mental.

En este momento hay aproximadamente 250 jardines comunitarios en el área de los Twin Cities, y este numero crece cada año!

A = arte en el jardín B = jardines de flores F = huertas
N = plantas nativas Y = participación de los jóvenes

El Sábado, 22 de Agosto, 40 jardines comunitarios en los Twin Cities abren sus puertas y invitan a la gente de la comunidad a pasear, mirar, aprender, y celebrar! Eventos del desfile son gratis y abiertos al público.

Los jardineros y las jardineras de la comunidad dedican miles de horas cada temporada a cultivar comida para sus familias. Ellos mismos también hacen mas lindos sus barrios y proveen espacio en la ciudad en que los vecinos conozcan uno a otro. Nuestro desfile celebra la entrega de los jardineros a sus comunidades y a la tierra.

Para encontrar un jardín comunitario cerca de usted, por favor visita la guía en nuestro sitio de Internet: www.gardeningmatters.org
